Islam is the last frontier of missions. If you look at a map of the world the Gospel has penetrated to almost every area and culture except the 1040 window, which remains a Muslim stronghold. There are people there dying without knowing Jesus, yet God loves them and has a special plan for them too. What a blessing it is to make an impact for the God's kingdom in that area. This generation has the unique opportunity to trust God together as the whole body of Christ, in the fellowship of this great commission.
